OMRON

Cables for I/O Relay Terminals xw2Z-R

Connect I/O Relay Terminals to I/O Units for Programmable Controllers with one touch.

- Cables with Connectors for G70V and G7TC I/O Relay Terminals, G70D and G70R Relay Terminals, and G70A and P7TF-IS/OS I/O Terminal Sockets.
- Cables with loose wires available with or without crimp terminals.
- Cables available for programmable controllers from Mitsubishi Electric.

Cable Types and Table of Contents

	_		Description			Wiring diagram	
Connects to	Appearance	Description	Name	Classification	Typical model	Page	Number
Connections with termi- nal blocks of various de- vices		This Cable is convenient for con- necting I/O Relay Terminals to devices equipped with screw ter- minals.	Cables with Loose Wires and Crimp Terminals	16 I/O points	XW2Z-RY⊡C	- 4	(1)
	Q	This Cable has loose wires at the device end. Cables with Loose Wires		16 I/O points	XW2Z-RA⊡C	- 4	(2)
		Connects a PLC I/O Unit, De- viceNet slave or other device with Fujitsu connectors 1:1 to an I/O Relay Terminal.	Cables with Con- nectors (1:1)	16 I/O points	XW2Z-R□C		(3)
Fujitsu connectors		Connects a PLC I/O Unit, De- viceNet slave, or other device	Cables with Con- nectors (1:2)	32 input points	XW2Z-RI□C-□	5	(4)
		with Fujitsu connectors 1:2 to I/O Relay Terminals.		32 output points	XW2Z-RO□C-□		(5)
		Connects a PLC I/O Unit, De- viceNet slave, or other device with Fujitsu connectors 1:3 to I/O Relay Terminals.	Cables with Con- nectors (1:3)	48 I/O points	XW2Z-R C-	6	(6)
		Connects a PLC I/O Unit, De- viceNet slave, or other device	Cables with Con- nectors (1:1)	16 input points/ 16 output points	XW2Z-RO□C		(7)
		with MIL connectors 1:1 to an I/O Relay Terminal.			XW2Z-RI□C	7	(8)

numbers are same. Be careful when using with other models (Relay Terminals). Refer to the datasheet for specific products for details. ***2.** Refer to the datasheets for the G70V and G7TC for the connector

pin layouts of I/O Relay Terminals.

Connector Pin Diagram (from Connector Mating Side)

Item	Part		
Terminal Connector	A side	Loose Wires and Crimp Terminals (fork terminal (1.25-3))	
Connector	B side	XG4M-2030-T (MIL connector)	
Cable	UL2464 BC10P-SB AWG28(7/0.127) Interface cable (Cable color: Gray)		

Note: 1. The power line capacity is 50 mA max. per I/O point. Also, always check the driver capacity and I/O relay power consumption when using for outputs.

- 2. The crimp terminals are labeled with the corresponding connector pin numbers in parentheses. Refer to the Connector Pin No. Tables for marker tube numbers.
- 3. Connect terminals 9 and 19 and terminals 10 and 20 together when using the G7TC-OC08.
- 4. The wire gauge of the wires in the cable is 28 AWG (7/ 0.127).

* The connector is made by Fujitsu Component Ltd.

Ratings and Specifications

Rated current	1 A
Rated voltage	250 V
Contact resistance	20 mΩ max. (at 20 mV, 100 mA max.) *
Insulation resistance	1,000 MΩ min. (at 500 VDC) *
Dielectric strength	500 VAC for 1 min (leakage current: 1 mA max.)
Ambient operating temperature	0 to 80°C

* These values are for the connectors.

Safety Precautions

Be sure to read *Safety Precautions for All I/O Relay Terminals* in the website at: http://www.ia.omron.com/.

Warning Indications

	Supplementary comments on what to do
Precautions for	or avoid doing, to prevent failure to oper-
Correct Use	ate, malfunction, or undesirable effects on
	product performance.

Precautions for Correct Use

Wiring

- Do not perform wiring work, remove connectors, or connect connectors while power is being supplied. Electric shock or damage to the device may result.
- Double-check all wiring before turning ON the power supply.
- After wiring, route the cable so that force is not applied directly to the connections.

Bending Radius of Connecting Cables

• To prevent damaging the Connecting Cables, use the following minimum bending radii as guidelines.

Minimum bending radius

Wiring diagram No.	Model	Minimum bending radius (mm)	
(1)	XW2Z-RY□C	68	
(2)	XW2Z-RA□C	50	
(3)	XW2Z-R□C	68	
(4)	XW2Z-RI□C-□	- 88

Terms and Conditions Agreement

Read and understand this catalog.

Please read and understand this catalog before purchasing the products. Please consult your OMRON representative if you have any questions or comments.

Warranties.

(a) Exclusive Warranty. Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied.

(b) Limitations. OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE.

Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) Buyer Remedy. Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty.

See http://www.omron.com/global/ or contact your Omron representative for published information.

Limitation on Liability; Etc.

OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY.

Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.

Suitability of Use.

Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases.

NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON PRODUCT(S) IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

Programmable Products.

Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof.

Performance Data.

Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.

Change in Specifications.

Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.

Errors and Omissions.

Information presented by Omron Companies has been checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors or omissions.
